

**SANITARY DISTRICT ONE
TUNNEL STORAGE PROJECT**

CONSTRUCTION ACTIVITY NOTIFICATION

APRIL 1, 2010

- During the week of April 4, 2010 to April 10, 2010, construction activities are scheduled to occur adjacent to Rogers Elementary School. An access road and fencing will be constructed. Necessary tree removal will also occur. Please note these activities have been planned to coincide with the school Easter break in an effort to minimize disruption to staff, students and parents.
- Upon completion of the school year, open cut construction will commence along Russell Street, between Larme and Shenandoah. It is anticipated local access to homes will be made available in the evenings with full street closure experienced during the day. Detours will be posted. Street closures have been proposed in an effort to expedite the construction activities thereby minimizing long-term inconveniences to impacted residents. Provisions in regard to refuse collection will be forwarded at a later date as a Public Information Meeting is being planned in advance of the start of construction.

Should you have any questions or experience any concerns related to construction activities, please contact the Contractor, Pamar Enterprises, or the City of Allen Park's Consulting Engineer, Wade Trim Associates, Inc.:
