<b>Administrator</b>	Michigan's Weatherization Assistance Program
<b>Description</b>	Michigan's Weatherization Assistance Program (WAP) is a federally funded, low-income residential energy conservation program. The program provides free home energy conservation services to low-income Michigan homeowners and renters. Services include: wall insulation, attic insulation and ventilation, foundation insulation, air leakage reduction, smoke detectors, and dryer venting. A trained inspector will assess eligible dwellings for energy conservation needs. A typical inspection will include Blower Door testing for air leakage, Combustion Appliance testing for safety and efficiency, and a Health and Safety inspection. A computerized audit is the basis for determining which measures are most cost effective for each individual dwelling.
<b>Eligibility</b>	Eligibility is based on household income being at or below 200% of the federal poverty guidelines. Recipients of the Family Independence Program (FIP) administered by the Department of Human Services (DHS) or those who receive Supplemental Security Income (SSI) automatically qualify for this no-cost program. Only local Weatherization Operators can make eligibility determinations for this program due to many variables.

<b>Administrator</b>	Michigan State Housing Development Authority's (MSHDA) Family Self-Sufficiency Program, Wayne Metro CAA
<b>Description</b>	The MSDHA Family Self-Sufficiency Program (FSS) is administered through the Michigan State Housing Development Authority's (MSHDA) Housing Choice Voucher Rental Assistance Program. Through the FSS Program, MSHDA provides housing assistance, an interest-bearing escrow account, and the general coordination of the FSS program. Program participants pay a portion of the housing costs relative to their income and MSHDA subsidizes the balance. When the family's income increases, the family pays more money monthly for rent. Under the FSS program, as the tenant pays more for rent, MSHDA makes a monthly deposit into their account based on the amount their rent changes due to a change in their earned income. At the successful completion of the contract, the head of household receives escrow monies. Escrow funds can be used towards a down payment on a home, educational expenses, or to pay off debt.
