Re: City Administrator's Report to Council

1. **Street Improvement Millage:** The Contractor (GV Cement) has poured nearly all of the west side of Park Avenue, and have started to remove the old asphalt and concrete on the east side. All of the driveway approaches on the west side of the street have been restored. Next week, they will be starting on Robinson Avenue between Champaign and Berkshire.
2. **Street Sectioning:** The Contractor (Savone Cement) started today on the replacement of Blair Court from Northway Avenue to the cul-de-sac.
3. **DPS Facility Project:** Through a visual survey of the property, it was determined that approximately 20 mature trees (4"-5" caliper) could be saved by transplanting them from the construction zone to the area that has been reserved for the future Dog Park area. The cost was \$200.00 per tree. To buy trees of this size and have them planted would be in the range of \$1,600.00 to \$2,000.00 each.
4. The City Hall/Police Department parking lot will be sealed and painted before the end of the month. A few bad asphalt spots were repaired yesterday afternoon.
5. The tentative plan is to re-open City Hall, DPS, and Parks & Recreation to the public on Monday, June 15th.
6. The Library will be starting Curbside Pickup on June 15th. They are also working out the details with Parks & Recreation to handle home delivery service.
