

April 10, 2020

It has been 3 days since an Allen Park resident has passed as the result of COVID-19.

Today, on Good Friday, we lost 3 more of our residents. For their family and friends, this Easter Sunday will be their first without them.

As a community, we mourn the passing of three women - an 81 year old Asian woman who passed at Beaumont, Dearborn; a 65 year old woman and an 87 year old woman who passed at Beaumont, Trenton. Our deepest sympathy to their families and friends for their loss. Please say a prayer for those who have passed and those who have experienced this loss.

Please be mindful of the need to stay home and avoid contact with anyone who does not reside with you. Limit any trips for food or other basic necessities and take every precaution to protect yourself and others by using masks and gloves. Our confirmed cases for today were 7, the same as yesterday, and there has now been a total of 109 Allen Park residents who have tested positive for COVID-19 and we have lost 8 to this disease. Please do not become our next statistic.

Take care of yourselves and the ones you love.
