232 Deaths

## SITUATIONAL AWARENESS

- Governor Whitmer signed Executive Order 2020-42 extending the Stay Home, Stay Safe order until April 30th.  
[https://www.michigan.gov/whitmer/0,9309,7-387-90499\\_90705-525182--,00.html](https://www.michigan.gov/whitmer/0,9309,7-387-90499_90705-525182--,00.html)
- The 1,000-bed alternative care facility—TCF Regional Care Center, is scheduled to accept its first 25 patients today, Friday, April 10. It will receive patients from other southeast Michigan acute-care hospitals at least 48 hours after they have been admitted as an inpatient at one of those acute-care facilities. Patients will not be accepted by ambulance or walk-up.
- The Cleveland Clinic is sending voluntary healthcare workers such as critical care nurses, nurse practitioners, board-certified critical care and emergency medicine physicians, physician assistants, and CT and X-ray technicians to help Michigan fight COVID-19.
- The U.S. Department of Agriculture (USDA) has launched a new program that will feed kids eligible for free-and reduced-priced lunch. The program authorizes a pandemic Electronic Benefit Transfer (EBT) that would offset the cost of meals that would have been consumed at school for children in eligible households. Michigan will be the first state to operate this new program.

## ACTIONS TAKEN

- The Public Health Emergency Operations Center (PHOC) is at FULL ACTIVATION.

## STRESS & COPING

**Disaster Distress Helpline:** 1-800-985-5990

**National Domestic Violence Hotline:** 1-800-799-7233 and TTY 1-800-787-3224

The outbreak of coronavirus disease 2019 (COVID-19) may be stressful for people. Fear and anxiety about a disease can be overwhelming and cause strong emotions in adults and children. Coping with stress will make you, the people you care about, and your community stronger.

Everyone reacts differently to stressful situations. How you respond to the outbreak can depend on your background, the things that make you different from other people, and the community you live in.

### Stress during an infectious disease outbreak can include

- Fear and worry about your own health and the health of your loved ones
- Changes in sleep or eating patterns
- Difficulty sleeping or concentrating
- Worsening of chronic health problems
- Increased use of alcohol, tobacco, or other drugs
