SITUATIONAL AWARENESS

- In the last 30 days, Henry Ford Health has discharged over 800 COVID-19 patients throughout its various hospitals.
- Garden City Hospital has a total of 102 COVID-19 patients admitted, 26 have been intubated, and 41 have been discharged.
- General Motors (GM) has signed a \$489 million (USD) federal contract with the U.S. Department of Health and Human Services (HHS) to supply the Strategic National Stockpile (SNS) with 30,000 ventilators by August 2020.
- HHS has announced that the Centers for Disease Control and Prevention (CDC) will provide \$186,000,000 of additional funding to state and local jurisdictions for additional resources such as testing and surveillance.
- Magnolia Rehabilitation and Skilled Nursing Center in Riverside, California has evacuated its patients to other centers due to employees not reporting to work due to COVID-19 concerns. Out of 84 patients, 34 patients and 5 staff members have tested positive in the center.
- New York and New Jersey have reported their highest number of deaths in a 24-hour period. Yesterday, New York reported 779 deaths and New Jersey reported 275.
- The outbound travel ban that was placed on Wuhan residents on January 23 has been lifted by authorities.

ACTIONS TAKEN

- The Public Health Emergency Operations Center (PHOC) is at FULL ACTIVATION.

STRESS & COPING

Disaster Distress Helpline: 1-800-985-5990

National Domestic Violence Hotline: 1-800-799-7233 and TTY 1-800-787-3224

The outbreak of coronavirus disease 2019 (COVID-19) may be stressful for people. Fear and anxiety about a disease can be overwhelming and cause strong emotions in adults and children. Coping with stress will make you, the people you care about, and your community stronger.

Everyone reacts differently to stressful situations. How you respond to the outbreak can depend on your background, the things that make you different from other people, and the community you live in.

Stress during an infectious disease outbreak can include

- Fear and worry about your own health and the health of your loved ones
- Changes in sleep or eating patterns
- Difficulty sleeping or concentrating
- Worsening of chronic health problems
- Increased use of alcohol, tobacco, or other drugs
